

How to beat the US192 traffic

During the busy holiday period from 8 – 11:30am the US192 near Disney exit becomes jammed due to the high volume of traffic going to Disney.

To avoid this, here is a handy tried & tested shortcut to avoid the worst of the traffic and get you to the parks much quicker.

If you are staying along the **US27** north of the **I4**, head onto the **US192** (Disney World).

Follow the **US192** until you approach the **SR429** toll road bridge – get into the left lane and then turn **LEFT** to join toll road immediately after passing under the bridge.

Shortly after joining toll road (small toll charge), you will see the exit for Disney – exit here and follow the road into Disney complex.

You will eventually arrive at a T junction where you have a choice of destinations within Disney....

- Turn **LEFT** for **Magic Kingdom, Hollywood Studios, Epcot, Typhoon Lagoon & Disney Springs**
- Turn **RIGHT** for **Animal Kingdom, Blizzard Beach, Universal & SeaWorld** – also Osceola Parkway (see below)

Alternatively, if traffic is not so bad you can stay on US192 a little longer and avoid the small toll charge and then at the 3rd set of traffic lights after the bridge at the intersection with **Black Lake Road**, turn **LEFT**.

Follow **Black Lake Road** through all the bends until you reach a T junction intersecting **Sherberth Road** – Turn left here (you may notice the US192 already jammed up to your right).

Follow **Sherberth Road** through all the bends until you reach another set of traffic lights after a right bend – get into the right-hand lane and turn **RIGHT** at the lights - You are now on the Disney complex & **Osceola Parkway**.

Animal Kingdom is on the next **LEFT** – Magic Kingdom exit is just a little further along. All other Disney attractions are also clearly signposted from this road. This route can save you 20 - 30 minutes in the car.

The road you are on is the **Osceola Parkway** which gives you direct access to the **I4** for **SeaWorld, Universal, Volcano Bay** and **International Drive**.

Further down **Osceola Parkway** turns into a toll road before reaching the **Florida Turnpike**, but for a few dollars, it gives you fast and easy access onto **Orange Blossom Trail**, where if you then go North, it will take you places like **Gatorland** and **Florida Mall & Mall of Millenia**.

Also, **Osceola Parkway** is a quick way to the **International Airports** – just follow signs off the **Osceola Parkway** onto **SR417 Central Florida Greenway**.

When returning after your day out, just drive onto Disney internal roads and follow signs for **Animal Kingdom / Animal Kingdom Lodge**.

When you approach the **Animal Kingdom** entrance, keep in **LEFT** lane following signs for **Animal Kingdom Lodge**.

At traffic lights turn **LEFT** onto **Sherberth Road** (you will notice a small 192 sign on the right pointing left before this junction).

Follow winding roads in reverse. You can join the **US192** and turn **RIGHT** on the red light and follow the **US192** to the **US27**.
